In the matter of case number 251947 Christ the King Catholic School is requesting an appeal for the denied amount that was originally awarded and funded. The referenced form 470 number 170077988 did not post for MIBS services. Consequently, the appeal was funded and later denied for failure to post the appropriate service category in Funding Year 2017. Unmanaged services should have been the chosen services category and was not chosen in error. Christ the King Catholic School is requesting a change in category with the amount to be awarded for that category.
